ley and Miss Ada Fualkner served delightful sandwiches. During the afternoon the health of the young ladies was drunk and a long and happy life was wished for them.

Despite the inclement weather a large and merry crowd was present.

THE MARRIAGE OF MISS ELIZA LINDSAY.

Miss Eliza Lindsay and Mr. Rufus McCracken of Columbia, were happily married Thursday morning at nine o'clock at the home of Mrs. A. W. Clark, on Pinckney Street.

The parlor of the Clark home had been made festive in its decorations of pot plants and cut flowers and at the appointed hour the ceremony was performed by Rev. M. R. Plaxco, the pastor of the bride. The bride wore a handsome suit of brown and carried in her arms a shower bouquet of brides roses. Mr. McCracken was attended by his two friends Mr. Robert H. Greene and Mr. Elbert Corley and these with the Clark family made up the guests, the wedding being a quiet affair.

Immediately after the ceremony Mr. and Mrs. McCracken left over the Southern for Washington where they will spend a few days.

Mrs. McCracken as Miss Lindsay has endeared herself to the people of our town and county, since she came here several years ago as business manager of the Adair Department Store. She is a woman of many fine qualities and the good wishes of a host of friends follow her to her new home.

Miss Lindsay has been an active member of the Associate Reformed Church, singing in the choir and taking part in the different organizations of the church and the Seceders feel that her place cannot easily be filled.

Mr. McCracken is an employee of the Southern Railway and is a young man who will make his way in the world. He is a grandson of Dr. T. J. Mabry and has many relatives in our town and county.

Mr. and Mrs. McCracken will be at home to their friends after Oct. 10th at 1519 Taylor Street, Columbia.

THE ROAD TO TO-MORROW.

Don't live for to-day only; don't trust to luck for to-morrow. There is a road that leads straight to a better future. It's the "Road of Savings." It's an easy road to travel, once you get started. Let us show you the way.

Mrs. J. F. Thornton, Abbeville, S. C.

"The Acid Test"

Only Mr. Edison Dares to Make This Test.

In announcing his new musical instrument to the world, Mr. Edison faced a new problem. How should the public be made to realize that he had actually Re-Created Music—that he had produced a new musical instrument—not a talking machine—not even a phonograph? All the superlatives and finely worded phrases had been used in the description of old standards. Applied to Music's Re-Creation, the most extravagant claims would, therefore, fall short of the truth.

And so, with his usual frankness and simplicity, Mr. Edison conceived a plan which, by its very daring, defies contradiction.

"Let the public hear The Edison side by side with the living artists and permit it to judge for itself." How startling an idea! How daring an experiment—Who would ever demand so much of a phonograph?

Yet Mr. Edison was willing to offer the public this straightforward proof that he had actually Re-Created music.

Mr. Edison called in the great artists who sang for him. He asked them to go out to the music centers of the country and, in the cause of true music, let the people judge for themselves.

More than 800,000 music lovers have witnessed this unique experiment. At each tone test, a large and critical audience assembled. Repeatedly the listeners were held spell-bound by the revelation which greeted their ears.

They heard the living voice of the singer. They heard its Re-Creation in direct comparison.

But only by watching the singer's lips could they tell when they heard the living tone and when they heard its Re-Creation upon The New Edison.

Newspapers sent their music critics to judge this startling test. They came, cool, critical and impartial, trained in their judgment.

Over five hundred of them have publicly declared in the columns of their newspapers that it was impossible to distinguish between the real and the Re-Created. Not a single newspaper critic has claimed to be able to detect a difference. They have hailed Music's Re-Creation as "A New Art."

What testimony can be more convincing than this? Can you believe mere "glowing claims" when Mr. Edison offers you this final proof? Is it not significant too, that Mr. Edison is the only one who has ever dared to offer to the public this acid test—the only way by which it may really judge?

The Phonographs Company, 20 N. Main Street, are exclusive distributors in this territory of the New Edison and will be glad to demonstrate this wonderful instrument to you at any time. They also invite you to come to their parlor and hear all the latest music, as Re-Created by The New Edison.

—Adv.

HONORING THE BRIDES.

The reception given Wednesday afternoon at the home of Mrs. J. F. Bradley in honor of Miss Eliza Lindsay and Miss Lillie Clark was a very delightful affair. The reception was given by the ladies of the Associate Reformed church and was designed to show to these two happy brides the high esteem in which they are held by the members of the church which they have served so faithfully.

The house was prettily decorated in golden rod and from a pretty corner in the hall punch was served by Miss Margaret Perrin and Miss Susie Stevenson, while Miss Margie Brad-
